

EILOR MAGNETIC CORES

SPECIAL PRODUCTS | UNIQUE CAPABILITIES

SPECIAL SHAPES

For example: 3-phase E-core

Eilor produces the cores in various shapes and sizes, according to the customer's specifications.

CUT SEGMENTS

Special cutting of different shapes (Toroids, C-cores, E-cores and Blocks).

The internal diameter of this toroid is about 500 mm.

MASS PRODUCTION

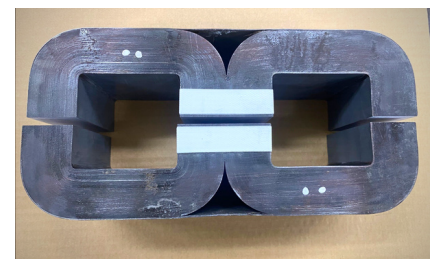

Mass production of large cores and tailor-made solutions to our customers worldwide.

The strip thickness of the C-core in the picture is 0.05 mm.

COMBI CORE

"Combi Core" is a combination of 2 C cores wrapped with 2 layers of strip and produced as a complete unit.

"Combi Core" enables efficient transformer assembly and function the same as 2 single C cores.
